Gary(laughing..) : "then day one grandpa asks um but in public#.i asked her once i felt she wasn't of my form that if she was confident beyond intellect not logic that it was fully so she didn't like the idea intellect Professor so said identity wise in relative existence#.Ash..Baby Gyarados,#,Misty too un..long,#,.. i don't believe she talks in that language in public at least#.because they take her as comprehensive Professor but if i do to then it's a mere validational object of my being isn't it yet i claim to be the witnessful subject so many counters#.Lillie..Playboy Chapters,#,..those notes were forbidden Ash i wish you never read those hands-on,#,..the Jubilee compeer i know those beings specifically Lastly Phantom..that being is a lie compeer..of me saying my..shh..so much separated is action from it's own i just for me compeer..if it's known or not the clarity or confusion is merely the defense of consciousness as but not the self of consciousness as i..so much humility Mist too agreed#..,Misty what exactly does this brat do at the gym#..,oh he's a cleaning staff full time then eventually will be promoted told Sarah infatuation can be the most admitting too compeer what if indeed it's true how would you know from veil compeer how can you know me as you#,i see hence Brauchy said he has much hazards at home#..,um..no they always take Ash literally he just wants to be me but just not adjectively but adverbially#.Daisy..Playboy Ticks,#,..i see Raki works full time passes just always you make a just the next grade i guess he's more confident of loneliness being just the seclusion thus specification of own in counters#.it could be a veil of absolutes compeer what if afterall qualia is proven to be thy not why..shh..so much regret on being yet together with a dependent cry..to be helped to be free from never me to the voidness of neigh..the least possibility of preparation is there compeer..what if i find lost just as i hear i..so reciprocating countering in the name of dissolved i..shh..i read this freedom of thy compeer this tone so excusin'..#.besides Raki meets Freesia just to check if there's still i,i rather directly ask Mist if i could be replced by why#.Violet..Playboy Sanctions,#,..i see about the unfortunate situation of theirs that you two defend as you hobby albeit for 10 years now and you're yet to be high#..,i heard this song compeer..oh me me oh excited/let then self be delighted/oh trial of attempt conscious/let concern's vulture live on as such..maddening this tune isn't it compeer#..,thus indeed is the lack of hesitation in your relationship standards thanks#..,well we said we will be at inspecting our bunches where only you,grandma and Gary comes so may be trust#.Lillie..Playboy On-Turn,#,..never is there unless Mist doesn't come here alone,cause she's bounded by limits of foundation's self being the same who alienates self of own from assertion of others compeer me thus mere bypassing amnesia#.Daisy..Playboy Acuity,#,..Daisy..you two aren't allowed here as part of LEGAL decree,#,..symmetry Dase then we're allowed outside the gate..shh..so convolving waiting waiting only for my/is though only me thought if you think..hallow never hi..any nominal motives veiled as adjectives of my,#,..Daisy..Playboy Security,#,..no today the courts tormented Lil much she won't come tomorrow,thus you're bearing the wrath of truthful harrow oh so demure..ending is silence's tenure#.Gary..Playboy Comes-On,#,..Rakim&Ash too un..long,#,..so at the end they complained that at least the baby gyaradoses no matter being full proof against precision and intelligence are too well secured rationally though#.Rakim+Freesia&Ash+Misty un..,#,..then the following is another chapter#.but then we all ended up in Marengooo#.."

Cilan(laughing..) : "i'm told we'll start from Marengo i said alright given your standards#.so we enter the forest day one a strange creature is sitting in the middle of the forest beside a rock no moon completely dark night but it's eyes were piercing blue hairs as perfect golden blonde body hairs white blonds but the

of self is the counter of witnessing action why#.Weather Chat,#,..i understand the novel wasn't at all false#.so i feel very strange Raki and Freesie are minutely observing the whole thing now Ash says,quality wise Niji you've been befuddled then by the absolution of necessity albeit thus circulating in the Lantern of imputed victory#..nifty i understand you couldn't say that as part of Misty : The Shadow of Appearance through the Lantern of registry,..shh..Mist says so countering indeed#.then i intervened,um..excuse me but you don't seem to be of um..noble intensions#..just as i say this the creature is no more but i hear,
Marengooooo#..

...

Daxton&Hertha(worried) : "um..excuse me um.."

Stash : "in the name of i alas foun so you/in the mean time i thought then i too you/inside or out in qualia boo/as Guzzled humdrum then rationality of cue..that's needed to be else whose you or you..greetings compeers i was told this is a celebration of variety do you know the direction to engaged vacuity.."

Daxton&Hertha(giggle) : "are you conscious#.Conscious Precious,#,.."

Stash(thumping..) : "Incendiary#..
